

DO MY BEST

Free wild horses running so deep in my veins
Bee swarms are buzzing in my head
All this chaos in me
Do you think I'm playing?
Oh no

I take my chance don't let go
Don't look back, got to grow
I've made the choice not to lose
Got so many things to prove

Million voices, like whispers resounding in my ears
My heart is burning under my skin
Fire in my stomach
Do you think I'm fainting?
Oh no

I take my chance don't let go
Don't look back, got to grow
I've made the choice not to lose
Got so many things to prove

I take my chance don't let go
Don't look back, got to grow
I've made the choice not to lose
Got so many things to prove
