

## FOLLOW ME

You appeared in my life when I was free,  
Told me what to sing  
Always trying to lead me you were free  
To put your rhythm in me  
Too much noise in my head and now I see  
Not enough harmonies you deceive me  
Living with my headache don't follow me  
Too much noise in my head  
In my head

Let the music play  
Take your mind away  
Let the music take you life  
Let the music play  
Take your mind away  
Let the music take you life

I didn't want to admit that I was yours  
That you had closed these doors  
But when I noticed you wanted more  
Than I could give you for sure  
I searched a way, found a cure for you to see  
That this noise in my head was not for me  
I'll give you my headache for you to see  
All this noise in your head  
In your head

Let the music play  
Take your mind away  
Let the music take you life  
Let the music play  
Take your mind away  
Let the music take you life
