

## JUST CLOSE YOUR EYES

If you think I'm your dolly  
Be sure I'm not  
You say that I'm yours for life  
Big mistake  
You say that you love me baby  
And I know that  
All of your promises  
You can give up

Just close your eyes  
Don't live your lies

You'll never see me in his arms I know it would kill you  
You'll never see his hand in mine I don't want to  
You'll never hear what he tells me, all these sweet little words to me  
You'll never see his lips on me, too much for you

I don't want you to suffer  
You can't ignore  
That I will stay no more with you  
I can't say I love you baby  
And you've got to know  
That he's got now your place  
But you'll never see...

Just close you eyes  
Don't live your lies

You'll never see me in his arms I know it would kill you  
You'll never see his hand in mine I don't want to  
You'll never hear what he tells me, all these sweet little words to me  
You'll never see his lips on me, too much for you
