

Magic trick

Let me introduce you
My favourite magic trick
Maybe you've seen it before
Let me tell you more
Wake up wake up wake up
Spellbounds and sorcery are reality

There's no need to say "Hocus Pocus"
I don't use words, words like "Abracadabra"

First I cast a spell, a spell over you
So you will bewitched, my cleavage acts like
Acts like a voodoo
Don't have a cauldron to make love potions
Champagne is enough to ignite passion
Mostly not useful
I've got no attic like a hiding place
Where I store phials, books of magic spells
So unnecessary

No need to introduce you
My favourite magic trick
I'm sure you've seen it before
I won't tell you... more

There's no need to say "Hocus Pocus"
I don't use words, words like "Abracadabra"

I am next to you when you need me to
A fairy godmother watching over you
That's how I do
Then I light the fire, put you on your knees
I become your guide, sway you with my tears
My little puppet
You're searching for me, looking everywhere
You can rub your eyes and see I'm not there
In a flash I disappear
