

Self esteem

Your man is out
Begins to work at 6 am
He is so kind
About you sleep he always cares
Alarmed turned off, slips out the bed without a sound
Lays a light kiss on your shoulder and says goodbye

It's a new betrayal day,
A day for you like the others
A shower, coffee, some make up
Your sheets don't have the time to cool
This new man from the dating site
Is coming home for the first time
Not a thought for your real man
The one who gives you everything

Your man is out
Goes for a drink with friends tonight
Leaves with a smile
A kiss on your forehead saying goodnight
He feels guilty of letting alone his dearest love
If only he knew you know how to stave of boredom
