

The One

He found my heart ten years ago,
I found my love and didn't know
He was the one who make grow
And together we'd build our home

He is my man now
The one I love, the one I want, the one I need
He is my man now

He is not perfect but he's true
And he loves as I do
Even if he's inept sometimes
I forgive him cause he's the one

He is my man now
The one I love, the one I want, the one I need
He is my man now
